

## CFS FACT SHEET

# Ways to stay informed

**Do not rely on a single source for emergency warning information.**

There are many different ways to stay informed about bushfires and other emergencies:

- CFS website: [www.cfs.sa.gov.au](http://www.cfs.sa.gov.au)
- Bushfire Information Hotline: 1800 362 361 (TTY 133 677)
- Facebook: [countryfireservice](#) and [cfsupdates](#)
- Twitter: [@cfsalerts](#) and [@cfstalk](#)
- RSS feeds
- Email subscription service for CFS bushfire advice and warning messages
- TV and radio emergency broadcast partners such as ABC Local Radio
- CFS booklets, brochures and fact sheets
- CFS community engagement programs
- Friends, family and neighbours

We recommend you keep a battery powered or wind-up radio ready in case the power fails during an emergency or your phone signal is lost.

Sometimes your own senses provide the best warning.

Stay alert to your surroundings during the Fire Danger Season.

### Where to hear warnings

The CFS partners with a number of media outlets who broadcast vital warning information to communities during emergencies.

People living in, or travelling through, bushfire risk areas during the Fire Danger Season need to stay aware of weather conditions and listen out for CFS warnings.

Tune into: ABC Local Radio, FIVEaa Radio, Sky News Television and ABC News 24.
